13	Top Performer	2,003,620
2	Top Performer	1,925,751
10	Average	1,899,425
27	Average	1,775,216
6	Average	1,564,728
1	Average	1,555,264
39	Average	1,450,668
19	Average	1,444,999
31	Average	1,395,901
23	Average	1,389,864
24	Average	1,356,755
11	Average	1,356,383
28	Average	1,323,522
41	Average	1,268,125
32	Average	1,166,568
18	Average	1,084,718

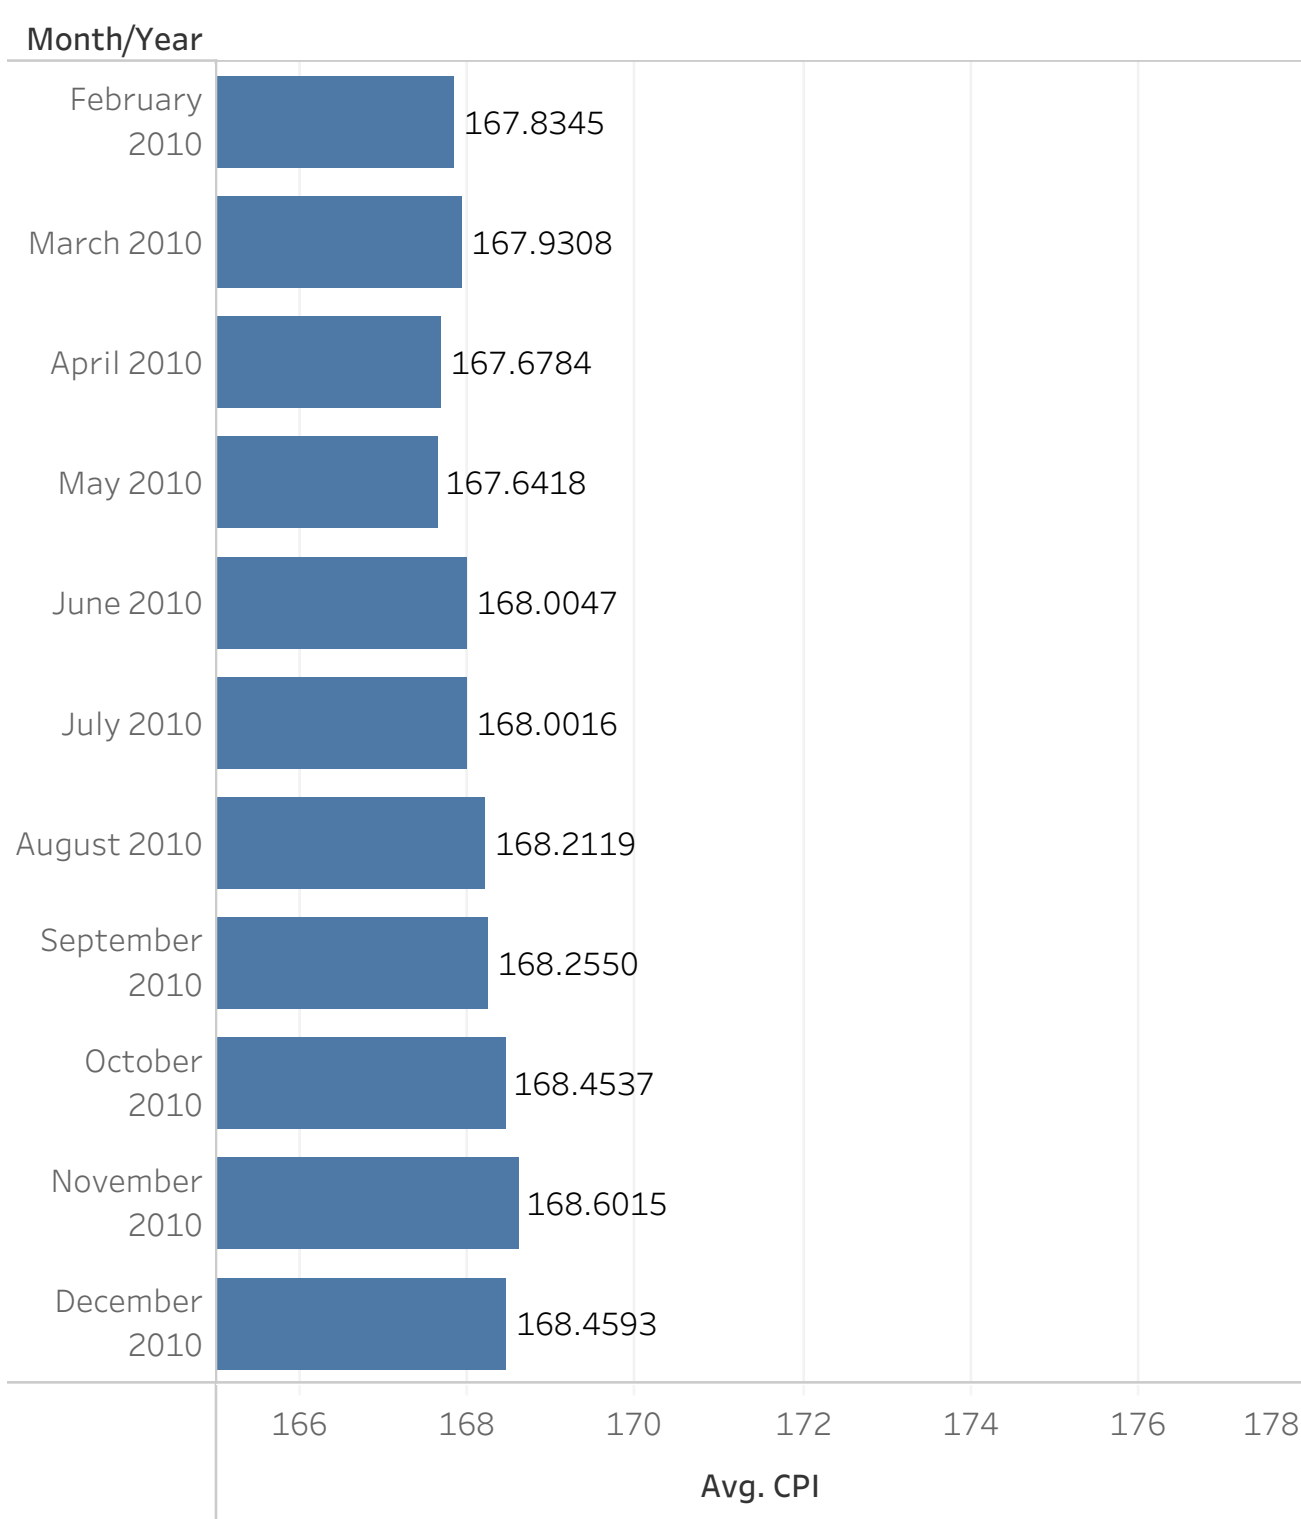

Average of Weekly Sales broken down by Store and Store Performance. Color shows average of Weekly Sales. The marks are labeled by average of Weekly Sales. The data is filtered on Action (Temperature - Calc), Action (MONTH(Date)) and Action (Month/Year). The Action (Temperature - Calc) filter keeps 4 members. The Action (MONTH(Date)) filter keeps 12 members. The Action (Month/Year) filter keeps 33 members. The view is filtered on Store and Action (Store). The Store filter keeps 27 of 45 members. The Action (Store) filter keeps 45 members.

Store Performance Matrix

Store	Store Performa..	Avg. Weekly Sales
22	Average	1,028,501
12	Average	1,009,002
26	Average	1,002,912
34	Average	966,782
40	Average	964,128
35	Average	919,725
8	Average	908,750
17	Average	893,581

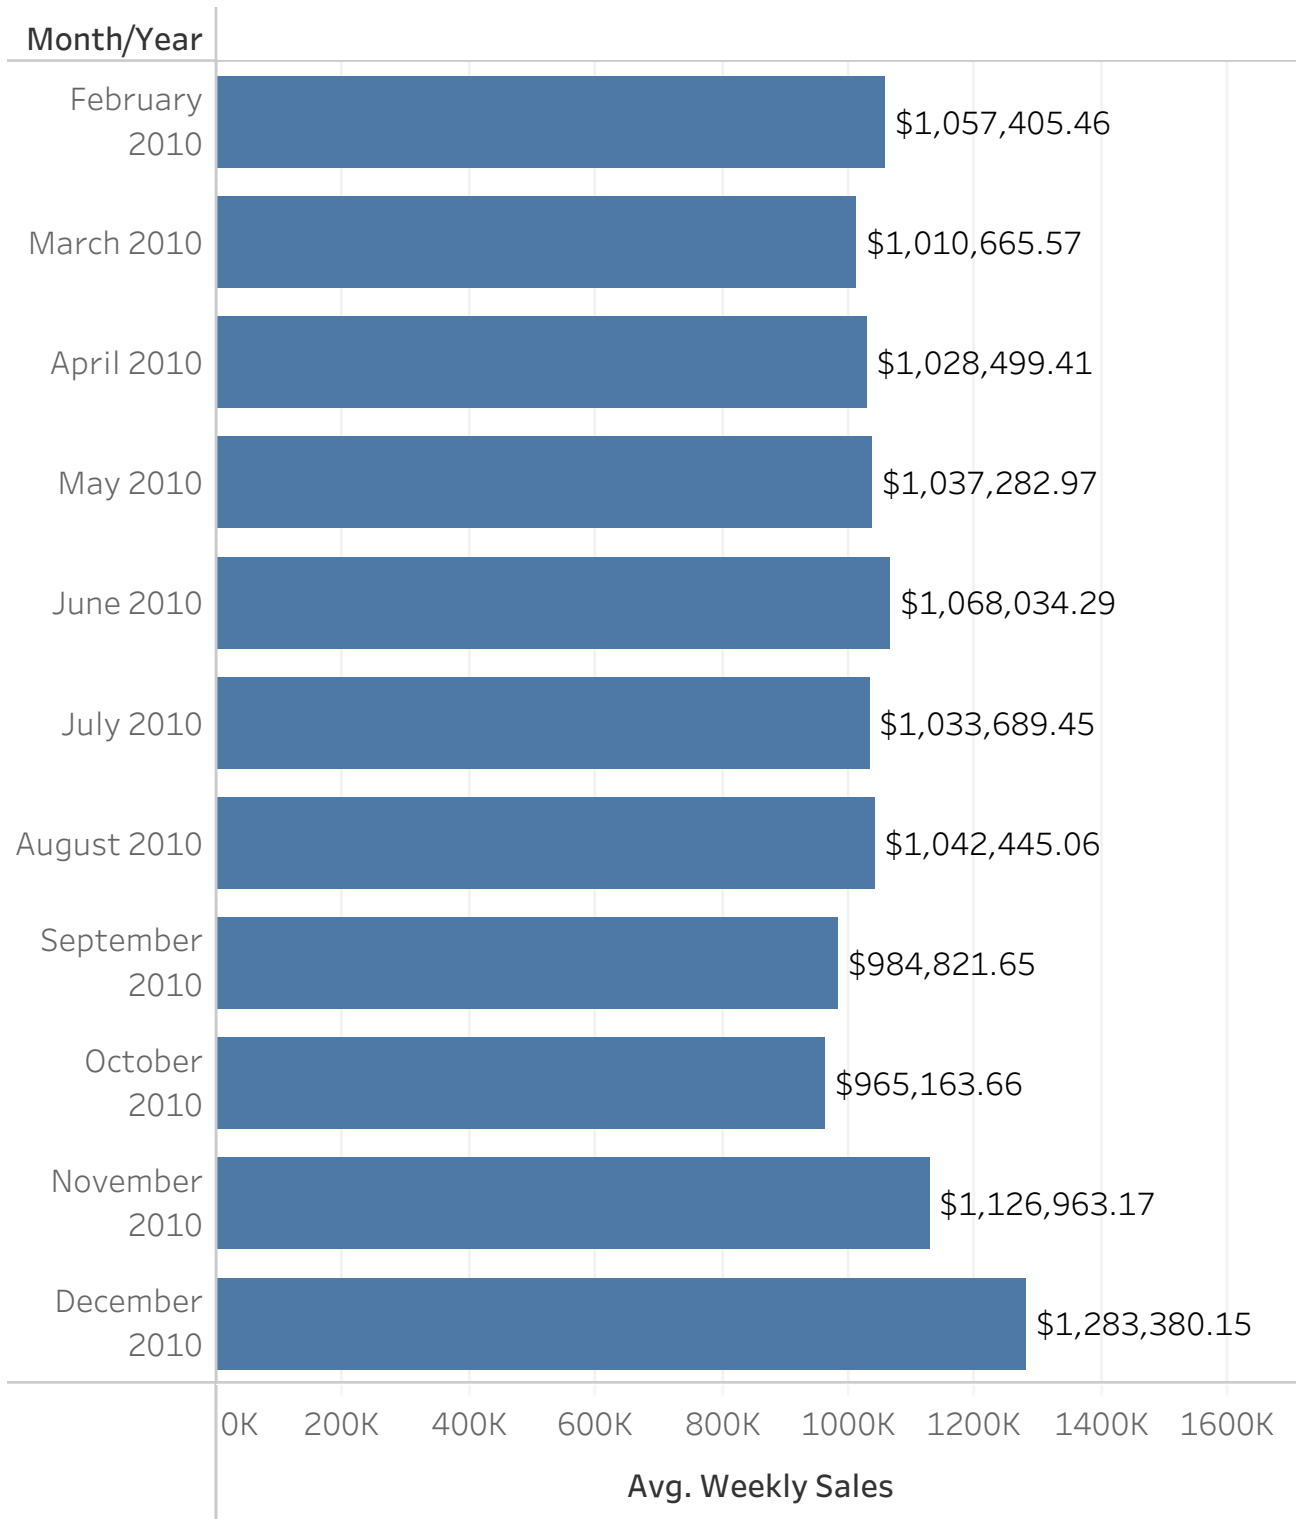

Average of Weekly Sales broken down by Store and Store Performance. Color shows average of Weekly Sales. The marks are labeled by average of Weekly Sales. The data is filtered on Action (Temperature - Calc), Action (MONTH(Date)) and Action (Month/Year). The Action (Temperature - Calc) filter keeps 4 members. The Action (MONTH(Date)) filter keeps 12 members. The Action (Month/Year) filter keeps 33 members. The view is filtered on Store and Action (Store). The Store filter keeps 27 of 45 members. The Action (Store) filter keeps 45 members.

Avg CPI vs Avg Weekly Sales from 2010-2012

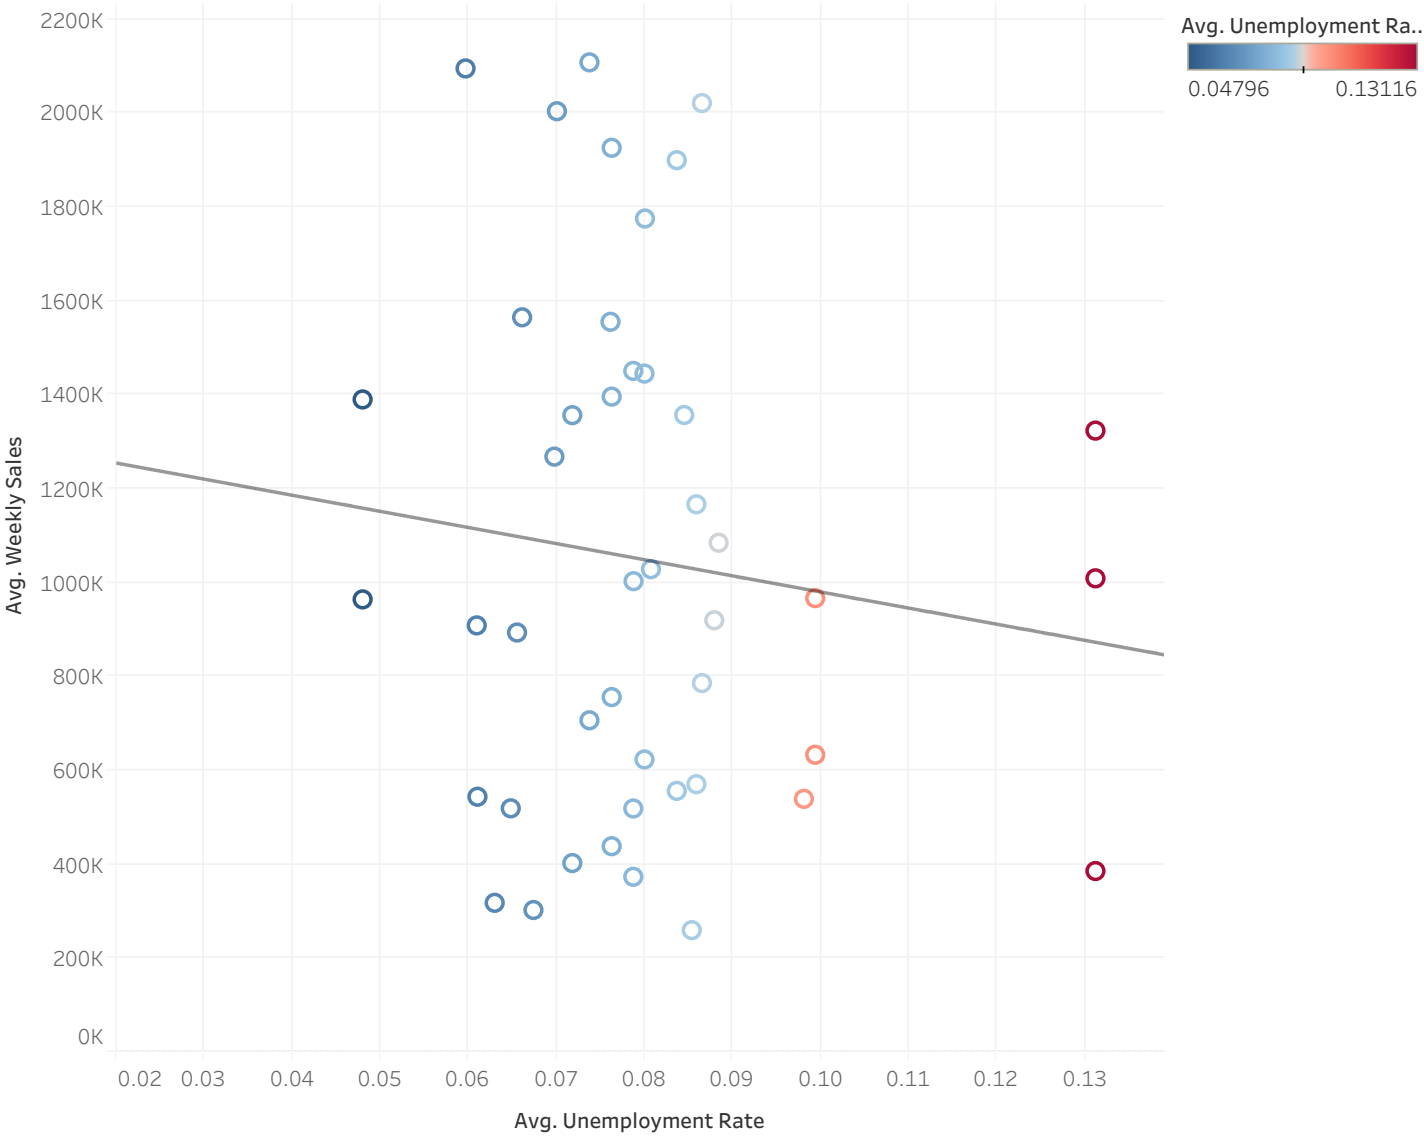

Average of CPI and average of Weekly Sales for each Month/Year. For pane Average of CPI: The marks are labeled by average of CPI. For pane Average of Weekly Sales: The marks are labeled by average of Weekly Sales. The data is filtered on Year Filter, Action (Temperature - Calc), Action (MONTH(Date)) and Action (Store). The Year Filter filter keeps True. The Action (Temperature - Calc) filter keeps 4 members. The Action (MONTH(Date)) filter keeps 12 members. The Action (Store) filter keeps 45 members.

Avg CPI vs Avg Weekly Sales from 2010-2012

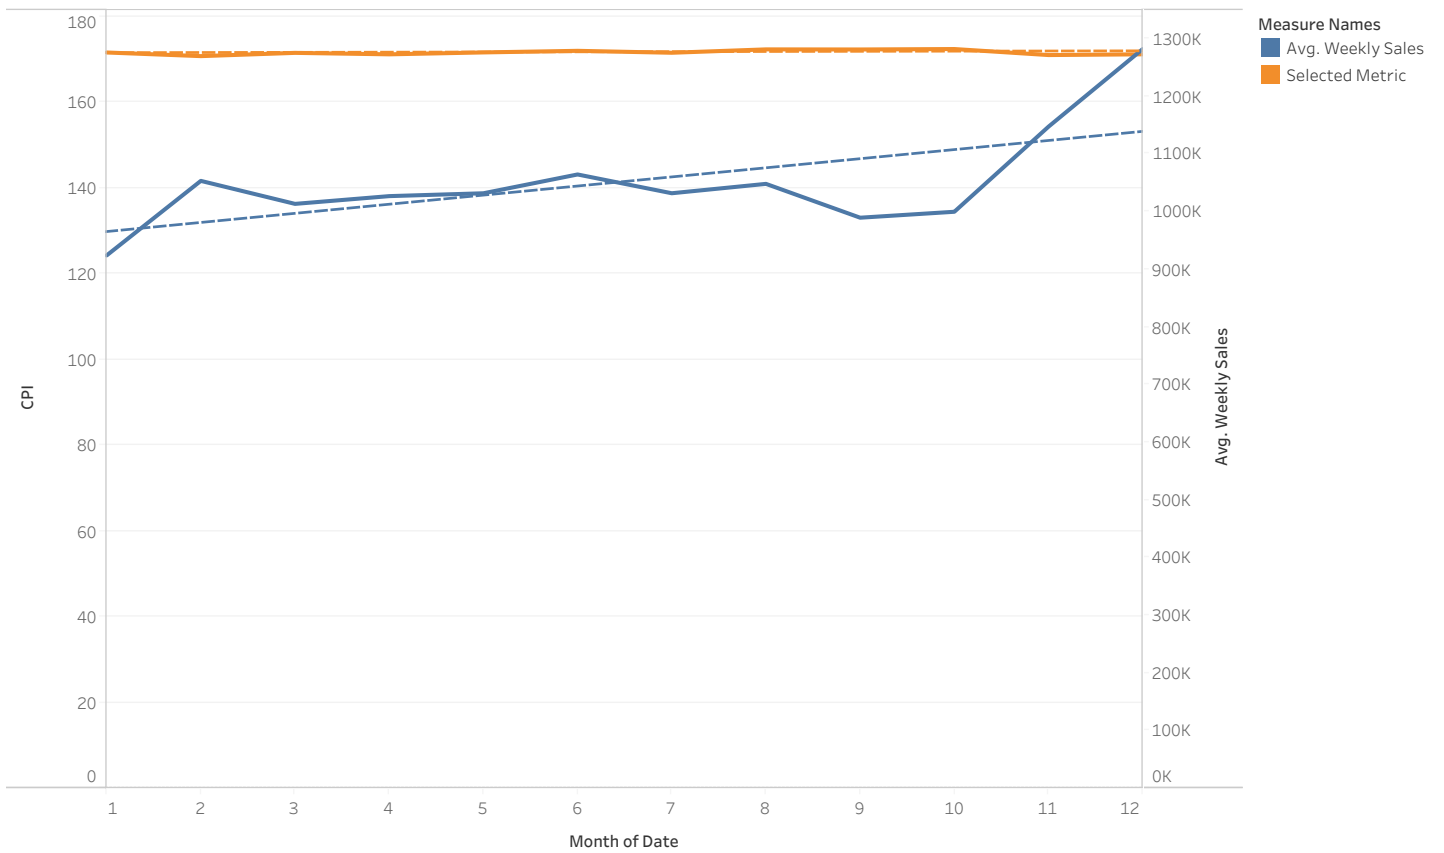

Average of CPI and average of Weekly Sales for each Month/Year. For pane Average of CPI: The marks are labeled by average of CPI. For pane Average of Weekly Sales: The marks are labeled by average of Weekly Sales. The data is filtered on Year Filter, Action (Temperature - Calc), Action (MONTH(Date)) and Action (Store). The Year Filter filter keeps True. The Action (Temperature - Calc) filter keeps 4 members. The Action (MONTH(Date)) filter keeps 12 members. The Action (Store) filter keeps 45 members.

Unemployment Rate vs Avg Weekly Sales

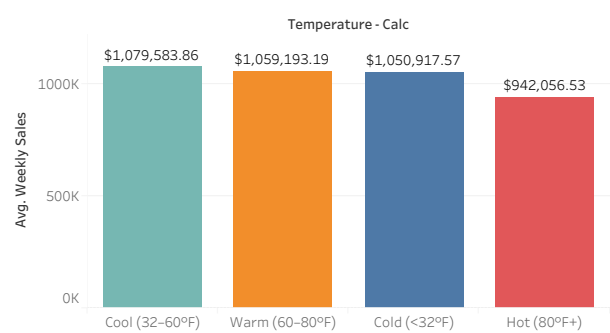

Avg. Weekly Sales vs. CPI

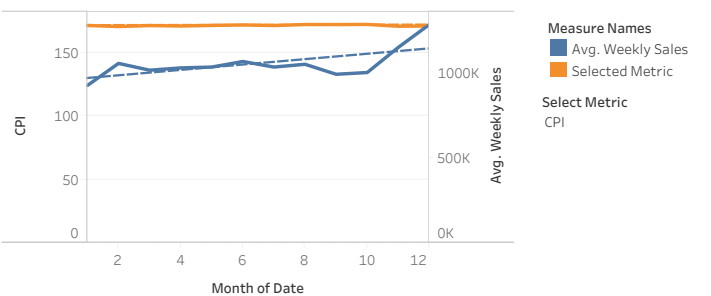

The trends of Selected Metric and Avg. Weekly Sales for Date Month. Color shows details about Selected Metric and Avg. Weekly Sales. The data is filtered on Action (Temperature - Calc), Action (Month/Year) and Action (Store). The Action (Temperature - Calc) filter keeps 4 members. The Action (Month/Year) filter keeps 33 members. The Action (Store) filter keeps 45 members.

What drives Average Weekly Sales the most?

Store Selection Matters More Than Weather or Economy: Top
Stores Outsell Bottom Stores 5x

Effect of extreme heat on sales..

Unemployment rate
has a negligible
effect on
average weekly sales

Fuel Price has most negligible
effect on average weekly sales

Store 20 was the highest
performer with \$2,107,677 in
average weekly sales

Limitations:

No store locations
Variables showed minimal correlation
to sales
No product category
No customer demographics

Recommendations:

Use locations to pinpoint regional factors and
create targeted strategies
Use product categories and customer
demographics to identify demand
Dynamic pricing on temperature-dependent
products
